

Jr. Hockey Mentoring Program

The Cambridge Rivulettes Women's Junior hockey team are excited to partner with CrGHA teams (Novice, Atom and Peewee) to provide a mentoring program for young, female hockey players. The Rivulettes Team and Coaching Staff realize how important it is for young female players to see all of the benefits and opportunities that playing hockey can bring them. This program allows the Rivulettes to serve as role models in the community through their commitment to mentor aspiring hockey players at all levels (House League and Travel). The Jr. Hockey Mentoring Program includes:

Practice Participation: Your team will have the opportunity to have one or two Rivulette players participate in two of your team's practices (schedules permitting). The participating Rivulettes will interact with and work with your players and help the Coaches with practice drills.

If your team is interested in these programs, please contact Kirsty Booth at k_booth77@live.com or 519-841-4067.

*This program is an excellent support vehicle for the associations and allows the Participating players a first-hand look at Women's Junior Hockey.
